The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

Operators Are Signing Scale

Nearly 100,000 Miners Have
Received Increase.

ANTHRACITE WORKERS
ARE OUT

Committee of Miners and Operators
Meet Today—Pittsburg Soft Coal
Operators Sign Scale.

Although the greatest suspension of coal mining in the United States occurred Monday, the fear of a complete tie-up of the industry has passed and the situation is expected to improve rapidly with each day. Reports received last night from the bituminous fields show many leading coal companies have signed the 1903 scale. The number of miners who received the increase is estimated at nearly 100,000.

As thousands of soft coal workers laid off to celebrate the inauguration of the eight-hour day, which is usually observed in the bituminous regions, the number of men on a strike, or who have suspended work pending negotiations will not be known until today or possibly Wednesday.

In the anthracite regions there is almost a total suspension of mining in obedience to the instructions issued by the Shamokin scale committee.

Representative of the operators and miners meet in New York today for further discussion of the differences existing between them.

John Carman Land- ed In Jail Again.

John Carman, who broke jail Wednesday night of last week, was captured Friday evening near Olive by Ethelma Pace and Ed Neal, who brought him to town and delivered him to Jailor J. M. Johnson, who was glad to pay over the ten dollars reward he had offered for Carman's capture.

Carman is now kept in a cell, and he is not likely to get out again.

Gilbertsville.

Bro. John Grady, of Birmingham passed through our town Saturday enroute to Livingston County where he preaches the first Sunday in every month.

R. F. Jenkins and wife spent Saturday in Paducah.

L. J. Gosset spent part of last week in Kuttawa.

Felix Montgomery who has been in Illinois for the past two months is visiting relatives and friends here.

Miss Elta Duvall has a full line of millinery goods now you will find her up stairs over the post-office.

Mr. Will Houston and wife of McEwen spent Sunday visiting her brother Fred Gregory.

W. R. Montgomery is in home on a visit from Indianapolis Ind. Cliff and Gola Jenkins left Sunday P. M. for Paducah where they will inter school.

May Build Through Murray.

Murray, Ky., April 5.—Mr. Stevens, who is at the head of the corps of surveyors for the Cairo and Tennessee River railroad, spent a few hours here yesterday. His engineers have had headquarters at Dexter near where their line crosses the N. C. & St. L. Mr. Stevens said this company would soon survey a route through Murray or as near that as possible. He is of the opinion that this road will also be built through Murray.

Big Fires At Murray.

Last Saturday night about 8-30 o'clock fire broke out in the wooden row of buildings on the West side of the court square at Murray, and destroyed nine buildings, consisting mainly of law offices it was known as legal row. Most all the contents of the buildings were saved and the loss was not over three or four thousand dollars with no insurance.

Tuesday evening about 7-30 fire was discovered in the garret of the Court House, and before it could be reached, it had such headway that it could not be extinguished. The records of both the Circuit and County Courts were kept in offices in the court house, and being an old style house, had no fire proof vaults to protect the papers. As the fire originated in the garret just over the Circuit Clerk's office, the records of the Circuit Court were lost, but the county records were practically all saved. Calloway county has long needed a court house and now that the old one is destroyed it is safe to say that our sister county will soon have a court house of which her citizens will be proud. The origin of these fires is yet a mystery, but is generally believed to be incendiary.

CALLS UPON GRAND JURY

To Investigate Charges of Undue Influences On Legislators.

Frankfort, Ky., April 2.—Judge Stout in his instructions to the grand jury today called attention to the charges of undue influences being used on the legislators in the recent fight on the rectifiers' bill. Judge Stout told the members of the grand jury that it was their duty to investigate these charges and if they were true to indict the guilty ones and if they were not true to indict the newspapers for libel.

Baptist Meeting.

There will be a "Roll Call" Meeting at the Olive Baptist church, beginning at 9 o'clock a. m. Saturday April 21st and continue over Sunday following.

An elaborate program has been arranged and a good attendance is expected.

Great Success.

The ladies of the Methodist church realized about \$50 from their dinner last Monday and are very thankful to the people of the county for their generous patronage.

Big Buildings.

Work has already begun on the foundations for the New Hotel and the Model Store buildings.

These two buildings will add largely to our town. The hotel will be a three story building, and will be a modern structure, with all the necessary equipments to make it a comfortable and complete hotel.

The Model Store is being built by S. L. Palmer, on the lot adjoining the McGregor & Morgan grocery, and will be 80 by 100 feet. It will front 80 feet on main street and will be mainly a glass front. When completed this will be one of the finest store buildings in West Ky.

Fire at Smithland.

Paducah, April 2.—Fire which started from a defective flue, destroyed the Webb house a large frame hotel at Smithland, last night. No lives were lost, but a good deal of furniture and wearing apparel went up in the flames.

James Baldwin and wife of Paducah, were boarders at the hotel but managed to save their effects.

The hotel was owned and operated by Mrs. Eva Webb. It was destroyed once before, about two years ago by fire.

A Loved One Gone.

On March 14th, 1906 the death angel entered the home of Mr. and Mrs. W. E. Holmes and took from them their little Homer aged 5 months 28 days.

Besides father and mother he leaves 3 brothers and 2 sisters to mourn his loss.

Weep not for Homer for he is at rest,

Homer precious jewel will be missed at home.

He was a bright beautiful child and well beloved by all who knew him.

God gives us love but lends us objects to be loved and then withdraws them to himself that we may feel our interest with the golden gates beyond.

This seems to our finite minds to be a strange and mysterious dispensation of Providence, but we must bow our heads and submissively wait for the the Eternal light to understand and appreciate His divine will.

Another form is laid to rest, in peaceful sleep beneath the sod,

Another soul has put on wings, And took its flight to dwell with God.

Homer crossed life's sunset portals,

To join the angels far away; And took the sunshine with him from out the brightest day.

Warehouse Stock- holders Meet.

On Wednesday at 1-30 P. M. the stockholders in the Benton warehouse met in the Sheriff's office for the purpose of organizing. J. D. Peterson called the meeting to order and was chairman protem and J. L. Price acted as Secretary.

The following were elected directors, viz:

J. P. Stille, W. S. Griffith, E. F. Black, R. G. Treas, and H. L. Griffith.

A building committee was then selected viz:

J. P. Stille, Pete Ely, R. G. Treas, O. Brandon and J. D. Peterson.

We regard this as one of the most important movements for the interest of both the town and county, that has yet been started.

There is no reason why every pound of tobacco raised in Marshall county should not be sold and the money paid out for same right here in Benton. It would be much more convenient to the farmers and would help to build up our own county. We hope to see a warehouse built big enough to hold all the tobacco raised in the county.

Horse and Po- tato Day.

For many years the first Monday in April has been known as "horse and potato" day in Benton, or as many people say "tater day."

Last Monday was a bright, beautiful day and the people began coming into town early in the day so that by noon there was scarcely standing room on the streets. Every body in the county who has sweet potatoes to sell bring them here on that day, and every one who wish to buy come with their sacks, prepared to carry them home. Every one who has a Stallion or Jack brings him in to exhibit on the first Monday in April. We doubt if there were ever more men in town at one time, than were here Monday. Every thing was quiet and the crowd left for home early.

The beautiful weather we have had since the beginning of April has been enjoyed very much by the people.

The peach blooms are beginning to appear now and we hope to have a good fruit year.

Many of our farmers are done stripping tobacco, and some of them have already delivered.

The tobacco crop will bring in a big amount of money this spring.

Our merchants are all heavily stocked with spring goods and are doing a fine business. This is the place to buy goods worth the money.

The Democratic Committee of the first congressional district will meet at Princeton next Saturday and declare Ollie James the nominee for Congress, as there will be no other candidate. There has never been any talk even of any other candidate.

The good citizens of Louisville are making an effort to have the saloons and theaters of that city closed on Sundays; but the chances are that the saloons and theaters will continue to violate the law and go unpunished.

Amendment

TO HOUSE RAILROAD RATE BILL OFFERED.

In Senate By Long, of Kansas—Personal Liability Bill is Passed.

Washington, April 2—Amendment to the house railroad rate bill, agreed upon at the White House Saturday by the friends of the bill, providing for a lim-

ited review of orders of the interstate commerce commission, was offered in the senate today by Mr. Long, of Kansas, but he was not able to get on the floor to make a speech on the bill. The principal speech was made by Mr. Fulton, of Oregon, who spoke for the bill.

Chief among the measures passed by the house was the so-called "personal liability bill," which favored the army railway employees throughout the country and which had practically a unanimous report from the committee.

Lowering The Standard.

The appointment of Percy Haley by Beckham to the position of chairman of the board of control of the three asylums for the insane was a startling bit of political information, but the outrage does not stop with Haley.

Beckham through his appointing power has named as Haley associates on the board, Milton Board and David B. Redwine. All these are active and thoroughly saturated machine partisans and machine spoolmen of the Beckham administration. These three political agents and confidential emissaries of Beckham were not placed in sole charge of the asylums for the good of the service. Neither of them by experience or inclination, possess any of the needful qualifications or the positions.

They occupy the places as a political emergency to use the patronage and power to further the political fortunes of the Beckham machine and the band of political pirates behind him.

The welfare, health, care and lives of over 4500 of the commonwealth's unfortunate insane persons are placed in jeopardy for the sake of the machine.

In addition this same board of control composed of Haley, Redwine & Co, have the entire distribution of largely more than a half a million dollars per annum appropriated by the State to defray the expenses of the asylums which money belongs to the taxpayers of the state.

It is needless to comment on the fact that every dollar of this money will pass through the hands of Beckhams henchmen for it is thoroughly understood by all men that no contract to furnish supplies to these institutions will be awarded to any other than a machine partisan.

We challenge any thick-skinned

adherent of the machine, to point to any act of the Quay gang of Penn., or Platt raiders of N. Y., or Cox crowd of Ohio, that evinces so little regard for the public service, as the act of Beckham naming Haley as chairman of the board of control of Kentucky charitable institutions. If Beckham has any regard for public decency, he would have selected for the position of chairman of this board a man of some education, integrity and qualification.

The appointment of Haley was an insult to political decency and an affront to modern civilization and is distinctly lowering the hitherto high standard on which our charitable institutions have been conducted.—Mayfield Monitor.

It was a great relief to Benton and local option towns, when it goes into effect, prohibition carriers from delivering whiskey into local option districts. Many jugs were shipped by express to the depot here last Monday.

THE MANGING NOT AMISS.

Farmer Who Butchered Entire Family in Arkansas Swung Up.

Little Rock, Ark., April 4.—James W. Ince, the young white farmer, who murdered his wife and three children near Whitely, this State, March 5, 1905, was hanged today at Danville.

It developed at the trial of the man that his father murdered his mother twenty years ago, and that his sister had committed suicide. Ince butchered his entire family with an ax for no apparent reason, except that he was out of work and he said that a streak of inherent depravity in his nature prompted the killings. He confessed the crime, and gave most revolting details.

How to Keep Youthful.

Youth depends to a great extent upon our ability to keep the blood and circulation in a healthy condition. The best method of doing this may be briefly summarized as follows:

"Take plenty of exercise in the open air—preferably in the country away from the city." The best exercise is a long walk in the country, and the benefit of such a walk is increased if only a very small quantity of fluid and food be taken during the walk. A good lunch for such a walk is a sandwich and an orange. This walk in the open air not only enriches the blood with oxygen but it strengthens the skin and nervous system and through this the digestive system.

Great moderation in the amount of food and especially of flesh food, should be practiced, particularly by old people. There is no longer any doubt that moderate meat eating after the "meridian of life" is reached is conducive of longevity.

Drink water and plenty of it after the age of 40 years is reached. A glass of hot water is too "hard" for drinking purposes without being boiled.

A glass of hot water gently sipped is a splendid stimulant and blood purifier.

Hints to the Cook.

A currycomb makes an excellent fish scraper.
The oftener soup is strained the clearer it becomes. An old napkin serves very well for a strainer.

In order to have potatoes always white, the kettle in which they are cooked should never be used for any other purpose.

A tablespoonful of sugar added to the water for basting roast beef will give rich brown color as well as a fine flavor.

Eggs covered with boiling water and allowed to stand five minutes are more nutritious and digestible than when boiled rapidly for three minutes.

In flavoring cake do not use lemon juice if light cake is desired since the acid sets free the carbon dioxide before baking.

The Cry Of The Children.

The menace of child labor is rapidly becoming known to the American people, and newspapers and magazines long silent upon this subject are now investigating child labor conditions. Some of the reports—all too authentic—are appalling in their revelations of brutality and inhumanity. In his book, "The Bitter Cry of the Children," just published, John Spargo makes the startling statement that there are now upwards of 2,250,000 children under fifteen years of age working in the mines, mills and factories of the United States. If this statement is only one-half true, it betrays a woeful condition of affairs, and one that should be speedily remedied. In southern cotton mills hundreds of children under seven years of age are working long hours, many of them at night. Inspection laws disregarded, child labor laws are openly violated, and the Moloch of Modern Greed is yearly claiming his childish victims by the thousands. Mr. Spargo publishes in his book a photograph that will

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI

Woman's Relief

This marvelous, curative extract, or natural essence, of herbs, which exerts such a wonderful strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the muscles to pull the womb up into place.

It is a safe and permanent cure for all female complaints.

WRITE US A LETTER

Best confidence, telling us all your troubles, in sealed envelope. Address: Ladies' Advisory Dept., The Chicago Medicine Co., Chattanooga, Tenn.

"I SUFFERED AWFUL PAIN in my womb and ovaries," writes Mrs. Naomi Baker, of Webster Groves, Mo., "and my menses were very painful and irregular. Since taking Cardui I feel like a new woman, and do not suffer as I did."

lingering in the minds of those who study it. It is a photograph of a grade of juvenile textile workers in Philadelphia who were a strike. Their starved, pinched faces, their insufficient clothing and their puny limbs are in terrible evidence. In their hands they carry banners with different inscriptions. Several of them read: "We only ask for justice." "We want to go to school." "We are protected by the tariff."

The demand for "cheap labor" is responsible for this criminal condition of affairs, and it comes from those who, unable to find enough childish hands to slave for them at a mere pittance, demand the abrogation of our exclusion laws in order that hordes of Chinese coolies may be imported. It is high time the fathers and mothers of America arouse themselves to a realizing sense of the danger that threatens their children.—Commoner.

The Oldest Woman.

[From the London Globe.] There is now in a refuge for the aged in Madrid a woman who may probably claim to be the oldest member of her sex in the world. She is an Andalusian and was born at Granada in 1781.

Her name is Maria Nieto y Santos. She has inhabited Madrid for 103 years and has been the mother of twenty-one children all of whom are dead, though most of them lived to a fairly old age.

There is nothing emaciated or cadaverous about the old woman's appearance. The skin has a healthy appearance, there is color

in the cheeks and her eye is still clear and bright. The surgeon in charge of the home thinks she may live a considerable time.

Fruit For Rheumatism.

A professor of dietetics says that the use of fruits is the best medicine for rheumatism; that the acids of fruit undergo changes in the body which aids the blood in eliminating the uric acid.

With a pure fruit diet and proper activity of the excretory functions the skin, bowels, lungs and kidneys, it is safe to say that rheumatism could not exist.

There is no doubt that fresh meats, eggs, milk, cream, butter and like "second-hand" foods, are frequent, if not the only cause of rheumatism. These articles of common diet contain products of animal waste, and poison and are in many cases known to produce diseases of various sorts. In choosing a diet for a rheumatic patient all foods of animal origin should be avoided. The best and safest foods are fruits, nuts, nut-foods, grains and fresh vegetables which can be eaten raw, such as lettuce, chicory, tomatoes, radishes, cucumbers, onions, celery, etc. Such a diet, with proper exercise, and cleanliness of body, is the best preventive, not only of rheumatism, but of many other equally painful and more often fatal disorders.

For children, especially, fruits in their season are an ideal diet, and should largely replace the meats, bread, pastry and candy now dealt out to them so generously. If fresh fruit is not to be had, canned or dried will answer

Farmer's

Column.

This column is devoted to farm, garden and poultry yard. We invite the farmers of the county to contribute regularly to this department, and keep it full of matter of interest to every one, who owns or runs a farm in the county.

An Act For The Benefit of The Farmers.

This Act Was Passed at the Recent Session of the Legislature.

An Act to Make Certain Contracts and Agreements Legal and Enforceable by Law.

Be it Enacted by the General Assembly of the Commonwealth of Kentucky.

Sec. 1. It is hereby declared lawful for any number of persons to combine, unite or pool, any or all of the crops of wheat, tobacco, corn, oats, hay or other farm products raised by them, for the purpose of classifying, grading, storing, holding, selling or disposing of same, either in parcels or as a whole, in order or for the purpose of obtaining a greater or a higher price therefor than they might or could obtain or receive by selling said crops separately or individually.

Sec. 2. That contracts or agreements made or entered into by persons with each other, the object or intent of which is to unite, pool or combine all or any of the crops of tobacco, wheat, corn, oats, hay, or other farm products, raised by such persons, for the purpose of classifying, grading, storing, holding, selling or disposing of said crops, or any of them, either in parts or as a whole, in order, or for the purpose of obtaining a better or higher price therefor than could or might be obtained by selling said crops separately or individually, are hereby permitted and shall not, because of any such combination or purpose of said persons, be declared illegal or invalid.

Sec. 3. Such persons so entering into such agreement or contract as is set out in the foregoing sections, are hereby permitted to select an agent or agents through or by or with whom said parties so entering into such agreement may classify, grade, store, hold, sell or dispose of said crops, or any of them, and said agent or agents shall have the right to take, receive, hold, store, hold, sell or dispose of said crops so placed in such agreement, as directed or authorized by their principal for the purpose of accomplishing the object of such combination or agreement between such principals, and contracts agreements entered into by such agent or agents for the purpose of classifying, grading, storing, holding, selling or disposing of said crops so combined, united or pooled, either in parcels or as a whole, are hereby permitted, and shall not, because of any such combination or purpose of such original agreement of such principals so entering into said combination, or of such agent or agents, be declared illegal or in-

valid.
Sec. 4. Whereas many persons of this Commonwealth now desire to combine the respective crops of tobacco, wheat, corn, oats, hay and other farm products an emergency is now declared to exist which requires that this act should and it shall take effect from and after its passage and approval by the Governor.

Care of the Cow.

Feed at regular hours. Cows like people, thrive best when their lives are orderly.

Milk at regular hours. Brush the udder carefully with a moist cloth before beginning to milk.

Always milk in buckets that have been scalded since the last using. The hot water kill the bacteria that collect in the dents.

Never let the milk pail remain in the stable. Milk rapidly absorbs impurities. These spoil the flavor and cause the milk to sour.

Never scold nor strike the cow. She is a nervous animal, and rough usage checks the milk flow.

Ayer's

Your doctor will tell you that thin, pale, weak, nervous children become strong and well by taking Ayer's Sarsaparilla. Small doses, for a few days.

Sarsaparilla

The change is very prompt and very marked. Ask your doctor why it is. He has our formula and will explain.

"When 13 years old, I was badly afflicted with blood poisoning, and in a few weeks, after using Ayer's Sarsaparilla, I was completely restored."

OBITUARY

"Blessed are the poor in spirit; for theirs is the Kingdom of Heaven" Matt. 5-3.

Mrs. Cora Draffen nee Gibson, wife of Charlie Draffen of the Briensburg, vicinity Marshall Co. Ky., was born April, 23rd, 1880, was married to Charlie Draffen August 1900. After a continued illness of patient suffering for some months she quietly peacefully, and happily passed away on March 21st, 1906, leaving a grief stricken husband one brother and three small children to mourn her death, together with a host of relatives and friends who sympathize with the bereaved ones.

Cora was a quiet, even tempered, unassuming devoted wife, a fond and exemplary mother, possessing a generous spirit, a kind and hospitable neighbor. In her death her husband and children have sustained an irreparable loss.

The vicinity a loss of one of its best neighbors which will doubtless be felt by those who knew her best. After funeral services conducted by Eld. N. S. Castleberry in Zion's Cause church the remains were by sorrowing friends tenderly laid to rest in the Wilson Cemetery.

She has passed to the land of mansions fair, Singing in the soul's bright home;

She will patiently wait till they all meet her there, Singing in the soul's bright home.

Little children are left to a fathers care, Wending to the soul's bright home;

We will give him the help of a brother's prayer, Going to the soul's bright home. Blessed father of love may thy

gracious hand, Lead them in the blessed way; Till they all meet her there in the heavenly land, Sharing that eternal day. N. S. and Minnie Castleberry.

For Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Dr. R. H. Starks.

Bath Don'ts.

Don't take a hot water bath if thin-blooded, nervous or neuralgia. Don't bathe your hands and face in hard water if you can get soft.

Don't take any kind of bath directly after a hearty meal.

Don't attempt to remove dust from the face with cold water.

Don't take a hot or warm bath in a cold room.

Don't take a hot bath without a cold water finish.

Don't bathe the face while warm from exertion.

Don't use cold water on the face while overheated.

Don't wash your face too often while traveling.

Don't forget the alcohol and washcloth when traveling.

Don't use a sponge for the face at any time.

Don't remain long in the bath, hot or cold.

Cures When All Else Fails.

I had a severe cough and cold. I tried a great many remedies but none of them seemed to do me any good, and at last I tried one bottle of Dr. Bell's Pine-Tar-Honey and it cured me. Very respectfully, Herman Uhlman, 114 1/2 St. Catharine St., Louisville, Ky.

How to Stop a Dog Fight.

I am surprised that so many persons, particularly owners of dogs, should not know that a fight, no matter how ferocious the combatants, can be instantly stopped by some one dashing cold water in the faces of the dogs.

The effect is instantaneous, and no immediate disposition is shown to renew the combat.

NOTICE

All those who are in arrears on your taxes owing to me for the time that I have tried to serve you as sheriff must come forward and settle same at once, as I am bound to close my books. You all know my time is out as sheriff. Give this matter your prompt attention and save cost for I will certainly levy as I go at your cost, so you will save cost by paying up at once. When in town call at the sheriff's office, if I am out Mr. Ely will wait on you.

Very respectfully,

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. F. H. Sturges, M. D., of Bennett Medical College, Chicago; Prof. Hale of the same city; Prof. John M. Saunders, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Coe, of New York; Dr. Bartholomew of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, profluvium, nervousness and retroversion and corrects irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a matter of large experience in the care of women's peculiar ailments, who frankly and confidently takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for women's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, openly and honestly, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y. 21 one-cent stamps to cover mailing only; in cloth binding 21 stamps.

A Hopeful Outlook.

Harper Weekly. William Allee White says that the most amusing "per-sonal" note that ever he came across in a country newspaper was that which last year caught his eye while reading a Wisconsin paper. The item was something like this:

"Niels Anderson met with a painful accident last week a fish hook becoming entangled in his eye. Niels is being attended by Doctor Phil Morton, who says his eye will come out all right."

When the wife and daughter are getting ready for the latter's wedding the husband and father realizes what it is to be insignificant.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky.

He writes: "Twenty years ago I had a severe hemorrhage of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures Hemorrhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Every bottle guaranteed by A. A. Nelson Druggist. 50c and \$1 Trial bottle free.

We Are Now Open and Ready For Business

Having just recently purchased the new stock of goods, bought by T. E. Barnes, now deceased, we are now open and ready for business at the same stand,

In the Lovett Brick Building, South Side of the Court Square

Mr. Barnes was one of the pioneer merchants of Marshall county, and his experience enabled him to buy a stock of goods that for quality and service can not be equalled by any concern in this county. We bought this stock, realizing we were securing a bargain, and now we are prepared to share our good fortune with our friends throughout the county. There is not an article in this stock that is not an enormous value at the price we make. There is no shoddy or cheap-john merchandise in the house, for it was a rule of the buyer of these goods, and one from which he never deviated, to always buy the best quality of goods on the markets. We did not buy this stock for the fun of the thing, nor for the benefit of our health, but because we saw we could realize a profit on our investment, and still be able

To offer the people Bargains that cannot be matched anywhere.

We respectfully solicit a visit from you before buying your goods at another place. We feel confident that at our prices, the goods themselves will make you our customer. A visit here will pay you big, as we honestly believe we have to offer to the people of Marshall county the Greatest RELIABLE Bargains in up-to-date

Clothing, Hats, Shoes, Dry Goods, Notions, Gent's Furnishings, Groceries, Etc.,

that have ever been put before our good people. We ask each and every one to call and examine our stock. Every bargain a RELIABLE Bargain, or we don't ask your patronage. No fake or foolishness about this business, but every statement we make, we back. Give us a call—it means money saved. Your friends,

P. H. THOMPSON & T. A. GRIFFITH, Lovett Building, BENTON, KY.

Rural Route No. 2.

The farmers in this section have done but little, as yet, owing to the continued rains, except in the way of clearing and fencing. We note quite a number of farmers displacing the old style fence and substituting instead, woven wire, which adds very much to the appearance of the farms, which also lends quite a relief to fence repairing for the future.

Most all the Tobacco raisers have delivered their crop, and received for same the handsome price of from 6½ to 9 cents per pound, which price makes tobacco raising profitable.

Messrs G. W. and H. B. Feezor have just completed two new framed tobacco barns, making room for larger and better crops.

We have very flattering prospects for a fine wheat crop this year, the acreage is good, and indications now are that we will have a bountiful yield.

Mr. Bud Gibson lost a fine mare a few days ago, valued at \$200. Cause of death unknown.

All the men and boys went to Benton Monday (yesterday) and all the women and girls went visiting.

The school at Oak Level under the management of Jno. Arant, closed last Friday with good attendance and good interest. Mr. Arant is one of our best teachers.

Miss Hattie Shemwell will begin an eight weeks term of school for the little ones at Oak Level next Monday.

Mrs. Walter Barker and little son returned to their home in Paducah Sunday, after an extended visit to her parents Mr. J. R. Freeman.

Misses Nellie Kelley and Rosa Reeves, who have been visiting friends and relatives in Paducah for a few days, returned home last Wednesday.

Mr. Clint Woods will soon move to Paris Tenn, where he will engage in the J. R. Watkins Medicine business, having secured that territory as traveling salesman. Mr. Rufus Barker also is to sell Watkins' Remedies and will be off in a few days for his territory, which is Logan county Ky. Both Mr. Wood and Mr. Barker are nice energetic young men and we regret to give them up, but hope they may be successful in their new work.

Let it rain! R. F.

St. Louis Live Stock Market.

Reported by Evans-Snyder-Buel Co. Live Stock Commission Agent.

(Special to the Tribune-Democrat) National Stock Yard, Ill., April 4.

Receipts of cattle the fore part of the week show little difference from a week ago and although light, the market does not show much strength. This is due to unfavorable advices from other markets. Beef steers average about a dime higher than last week and comprise a good average percentage of the receipts.

While no fancy grades were offered we sold a string weighing 1290 at \$5.65. They were the best here. Most of the medium to good kinds sold from \$4.90 to \$5.40.

Butcher cattle ruled uneven, steady to lower—with most weakness on the common kinds. Receipts moderate, none choice.

Best heifers \$4.50 to \$4.85; best cows \$4.40 to \$5.00 to \$6.50; common \$4.75.

Bright sunshine has put a little life into the stocker and feeder trade, yet receipts are so light and quality so common that trade is slow. We have several orders for good stuff that can't be filled.

Values show little change from last week but the outlook is favorable.

Hogs have the habit of making a new "high" weekly now, and have "made good" again this week when \$6.57½ was paid and lots of good to choice grades went at \$6.50 to \$6.55; bulk of packers \$6.40 to \$6.45 and light mixed grades \$6.35. Choice little pigs sold well, but lots of common to medium going at \$5.00 to \$5.50.

Good fat sheep are as high as any time of the year but lambs are gradually working lower.

Evans-Snyder-Buel Co.

Ordinance

The Board of Trustees of the town of Benton hereby do ordain as follows: SECTION 1: That there is hereby created and established a franchise or privilege to erect, operate and maintain a telephone exchange, embracing central office apparatus, telephone poles, fixtures, cables and wires along through over and under the streets, sidewalks and alleys of said town of Benton Ky., so as to connect said exchange with the long distance lines now operating in said town.

SECTION 2: The said franchise or privilege shall continue for a period of twenty years from and after the time the same shall take effect.

SECTION 3: The purchaser of said franchise or privilege may assign or transfer the same.

SECTION 4: Said poles, fixtures, cables and wires shall be erected and maintained in a substantial and workmanlike manner, and shall be so located as not to interfere with the legitimate entrance to any adjoining private property, nor to obstruct the free use of such streets, sidewalks and alleys for the purpose of public travel.

SECTION 5: The purchaser of said franchise or privilege his successors, or assigns, shall promptly replace all paving and macadam that may be disturbed by said purchaser in setting said poles; and shall also at said purchaser's own expense remove all dirt and debris that may arise in making excavations for that purpose; and all work of setting poles shall be done under the supervision of the Street Committee, and it shall be the duty of such Committee, to see that the provisions of this ordinance are faithfully complied with.

SECTION 6: The said town shall have the right to place, maintain and operate its fire and police wires upon the poles of said purchaser (within the corporate limits of said town) free of charge, provided said wires be located upon said poles in such a way as not to interfere with the wires of said purchaser.

SECTION 7: Said Purchaser, his successors and assigns, shall indemnify the said town, free from any and all damage, that may arise from the presence of said poles, fixtures, cables and wires, upon, along or under said streets, sidewalks and alleys, or from its failure to comply with the provisions of this ordinance.

SECTION 8: Within ten days, after the approval and publication of this ordinance, it shall be the duty of said Board of Trustees to advertise by publishing in a newspaper, published in
